

Switchboards

MPA Engineering designs, manufactures and supplies a wide range of electrical switchboards, control gear and related products.

MPA Engineering has specialised in the supply of high quality switchboards to client specifications.

- Low voltage electrical switchboards
- Low voltage motor control centre (MCC)
- Low voltage distribution
- Medium voltage electrical switchgear
- Medium voltage motor control centre (MCC)
- Junction boxes
- Local Control Stations
- Custom built cabinet
- Where appropriate, the inclusion of sun-shields and protection to IP66 for outdoor use
